*Enjoy spending time together
in the kitchen!*

The Chef Hat for adult and child will have you cooking up something special! Perfect for moms, dads, grandparents, boys, and girls!

The “Duet” Apron instructions are found at www.YouCanMakeThis.com.

Find embroidery downloads at www.SWAKembroidery.com.

Materials

- Light to medium weight woven fabric (Refer to table below for yardages.)
- Hook and loop tape (3/4" wide)
- Thread
- Straight pins
- Sewing machine

Size	Head Circumference Range	Fabric Requirement
XS - Baby	15" - 19"	5/8 yard
S - Toddler	17" - 21"	3/4 yard
M - Youth	19" - 23"	3/4 yard
L - Adult	22" - 25"	7/8 yard

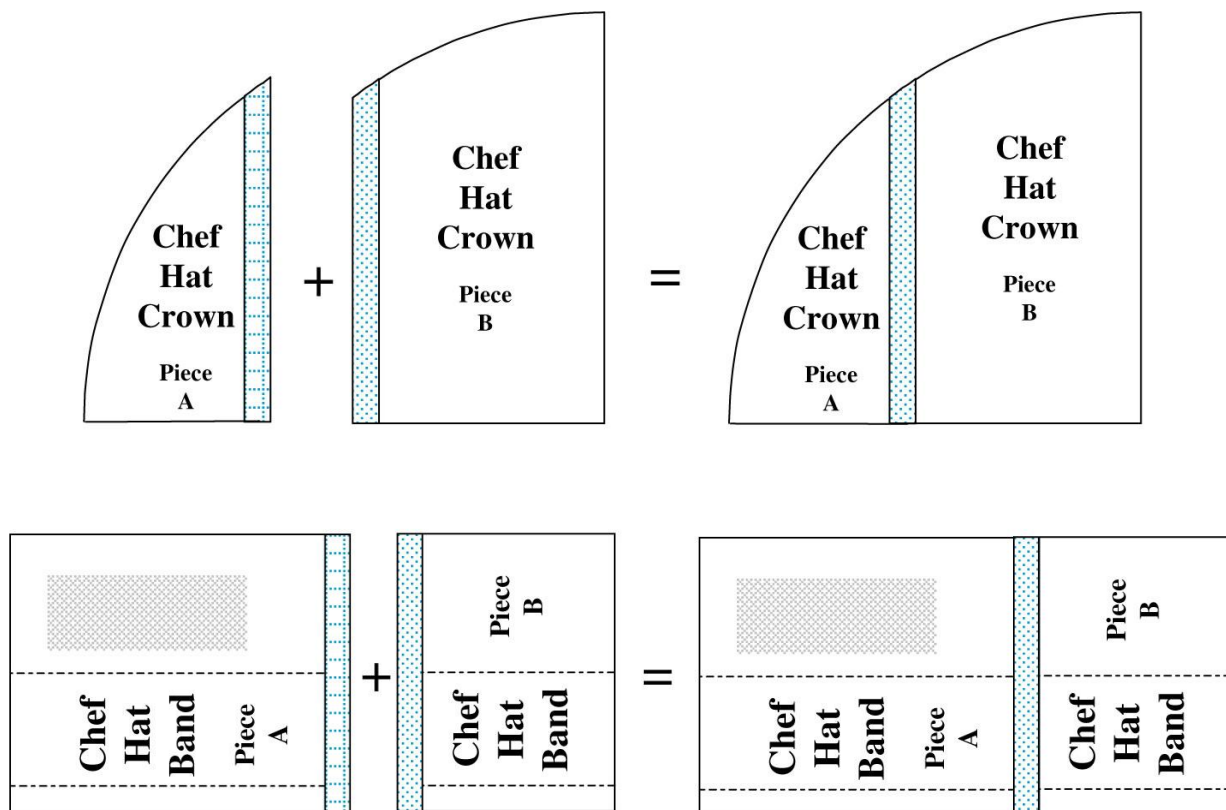

Printing & Assembling Pattern:

Before printing, be certain of the following:

- **Page scaling** is set to "none."
- **Shrink page to paper size** is not checked.
- **Auto-rotate and center** is not checked.

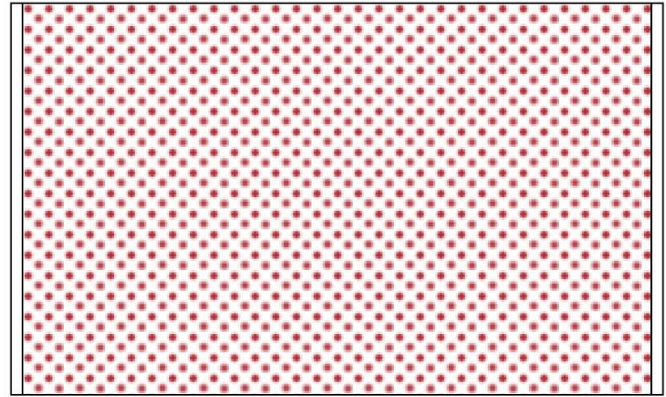

These settings are found in the print menu. Patterns are found in 2nd document of this download.

Once printed, assemble pattern as shown in diagram below.

Cutting the Fabric:

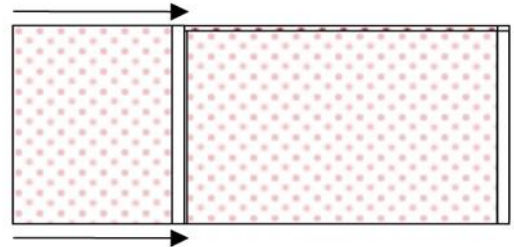

1. Lay fabric as a single layer.

3. Fold fabric in half lengthwise.

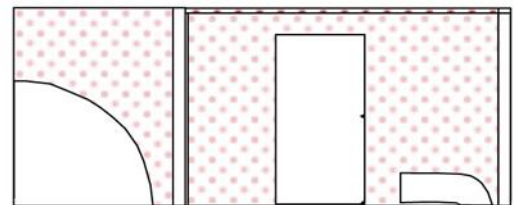

3. Fold one side over to about the halfway point as shown in the diagram.

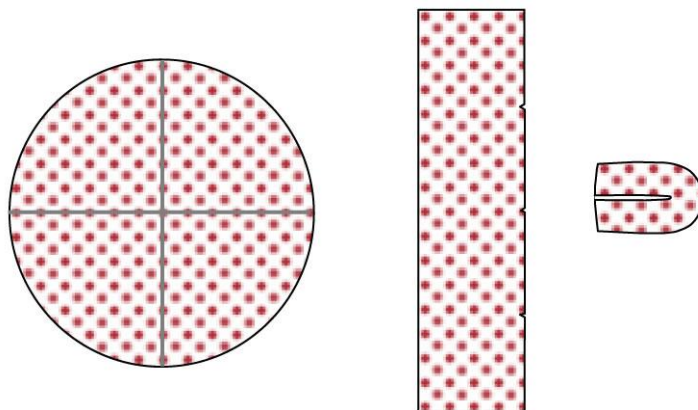

4. Place the crown pattern on the double folded section as indicated on the pattern piece.

Place the other two pieces on the fold of the remaining fabric.

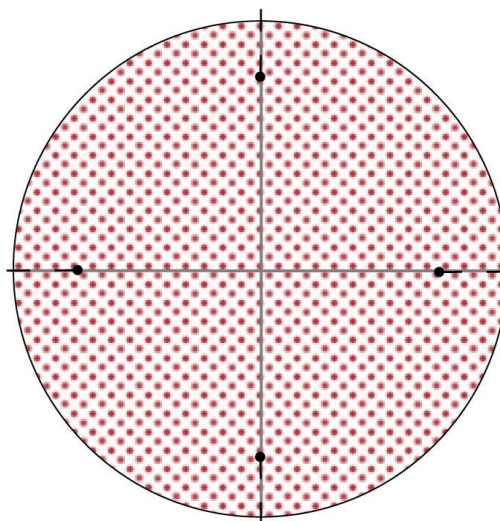

5. Cut out each piece.

Note: Before unfolding the crown piece, press it with an iron to mark the folds.

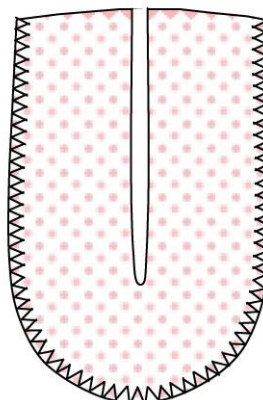

Sewing the Crown:

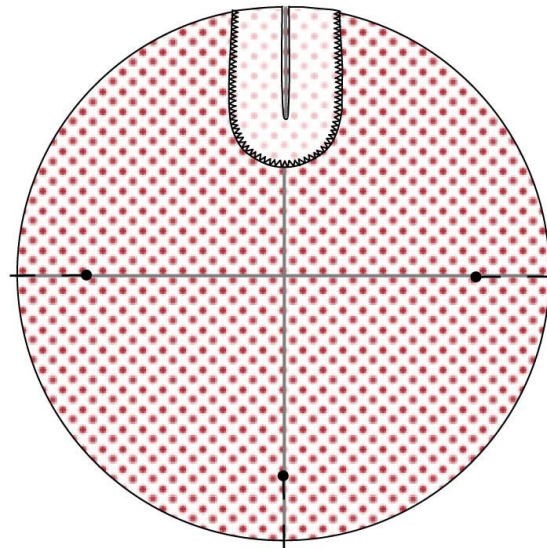

1. Mark the folds of the crown with pins.

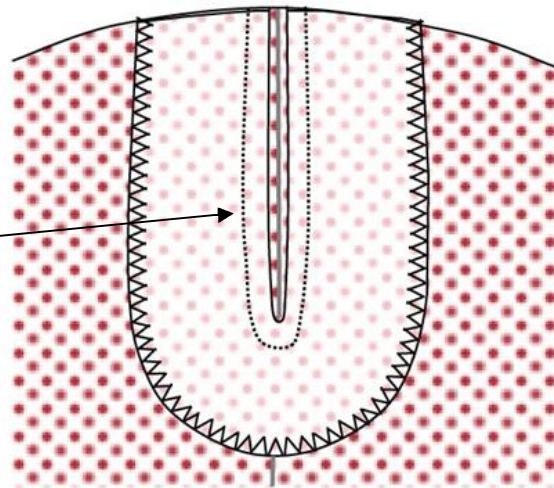

2. Zig-zag finish the outside edges of the slit facing.

3. Place the slit facing on the crown piece, right sides facing. Align the center of the slit facing with one of the pins.

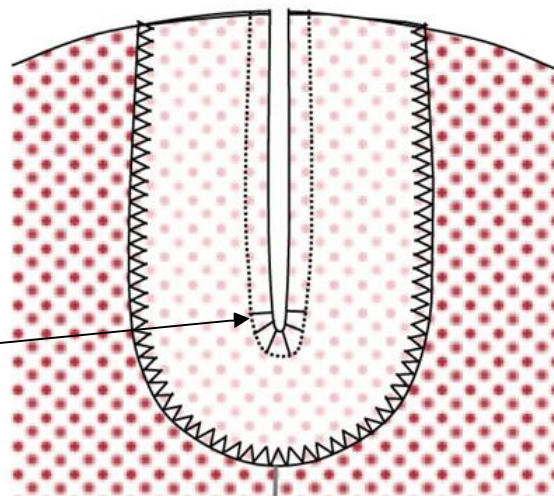

4. Stitch the slit facing to the crown piece, 1/4" from the inside edge of the slit facing.

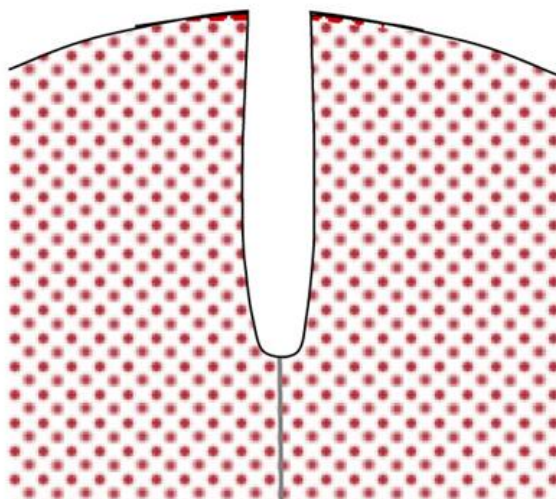

5. Cut the crown piece to the shape of the inside edges of the slit facing.

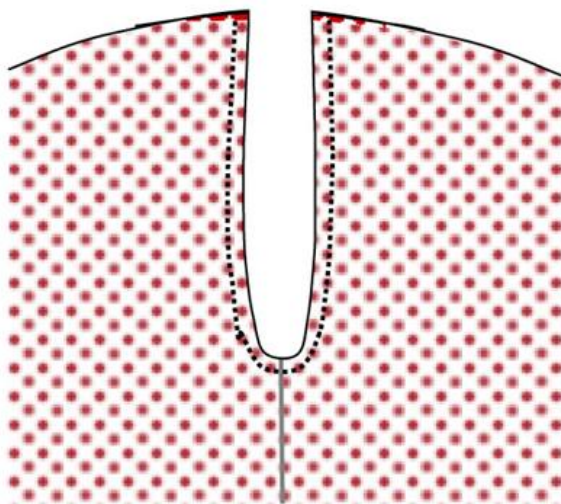

Snip the seam allowance at the curve.

6. Turn the slit facing around to the other side of the crown.

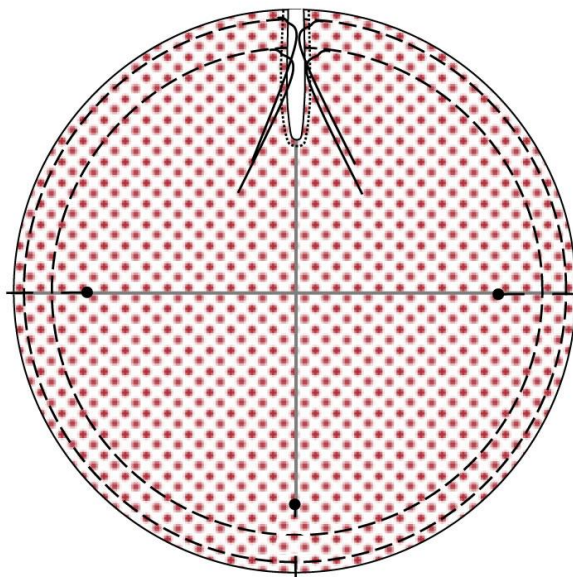

7. Topstitch 1/8" from the edge of the slit.

8. Run basting stitches 1/4" and 3/4" from the outside edge of the crown.

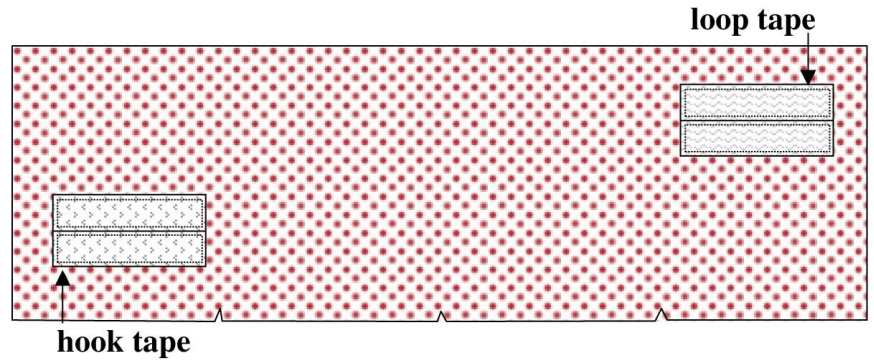

Set the crown aside.

Sewing the Band:

1. Sew the hook and loop tape into place on the right side of the fabric as indicated in the diagram.

The hook tape will be on the side with the notched edge, and the loop tape will be on the side with the un-notched edge. Don't reverse this, or the hook tape will be more likely to grab your hair! 😊

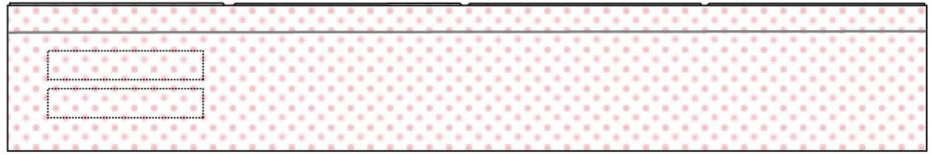

2. Fold the straight edge over 1/2". Press.

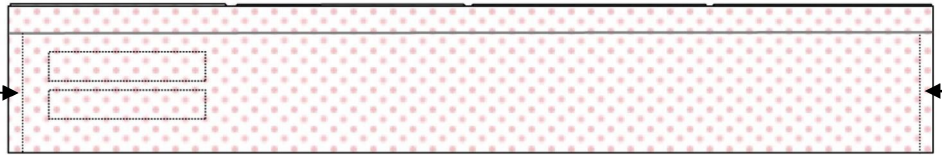

3. Unfold. A nice crease should be visible.

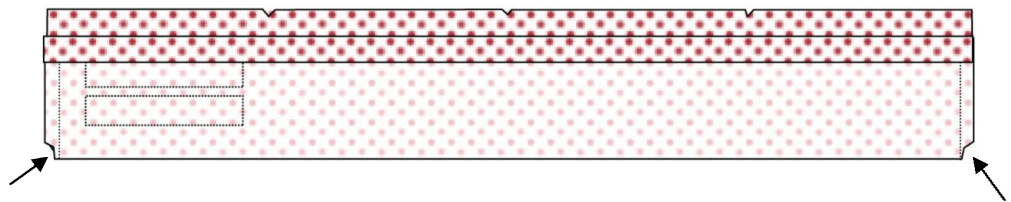

4. Fold the band in half lengthwise.

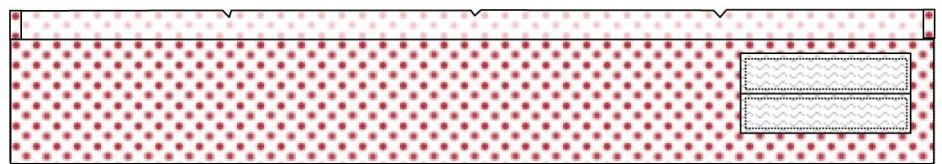

5. Stitch from the bottom edge to the crease, 1/4" from the side edges.

6. Trim the seam allowances near the bottom edge.

7. Turn the band right side out. Fold the un-notched edge back into place at the crease.

Fold the side seam allowances into place.

Attaching Crown to Band:

1. Gather the edge of the crown so that it is approximately the same length as the band.

2. Wrap the band around the crown, right sides facing. Align the notches in the band with the pins in the crown. Position the ends of the band next to the topstitching in the slit.

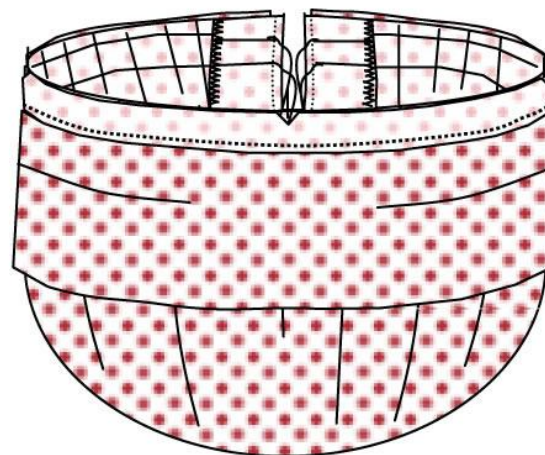

front

back

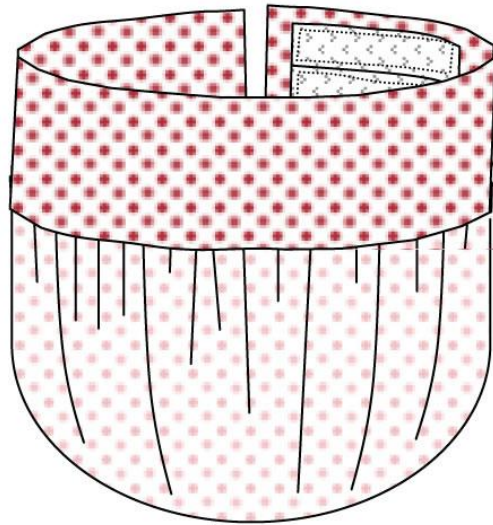

3. Move the folded edge out of the way.

Stitch the band to the crown, 1/2" from the raw edges.

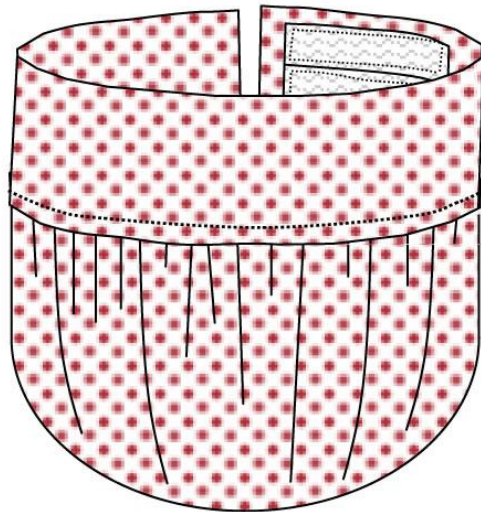

4. Pull the band up and away from the crown.

With the seam allowance pulled up, align the folded edge of the band with the stitching.

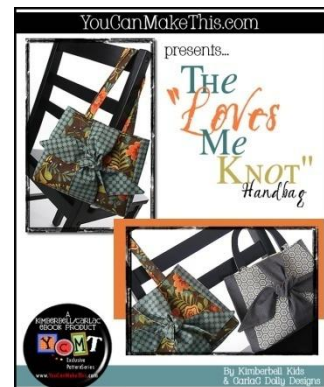

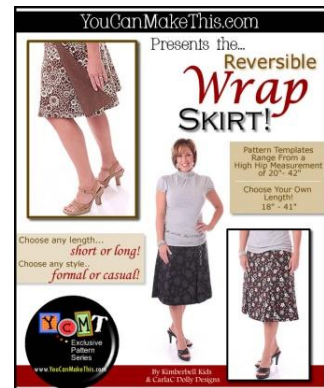

5. Turn the hat right side out. Topstitch along the band, 1/4" from the stitching.

Bon Appetit!
