# FRONT & BACK BODICE

## CURVY DRAPE DRESS

Cut 1 on  
folded fabric

Cut the neckline into the folded BACK & FRONT BODICE.

With right sides together, sew from the pink dot downwards on either side to create the armholes.

On the waist of the SKIRT, sew in the 4 marked darts. On each one, fold down the dotted line, line up the 2 solid pink lines and sew down the full length of the line to create a tuck.

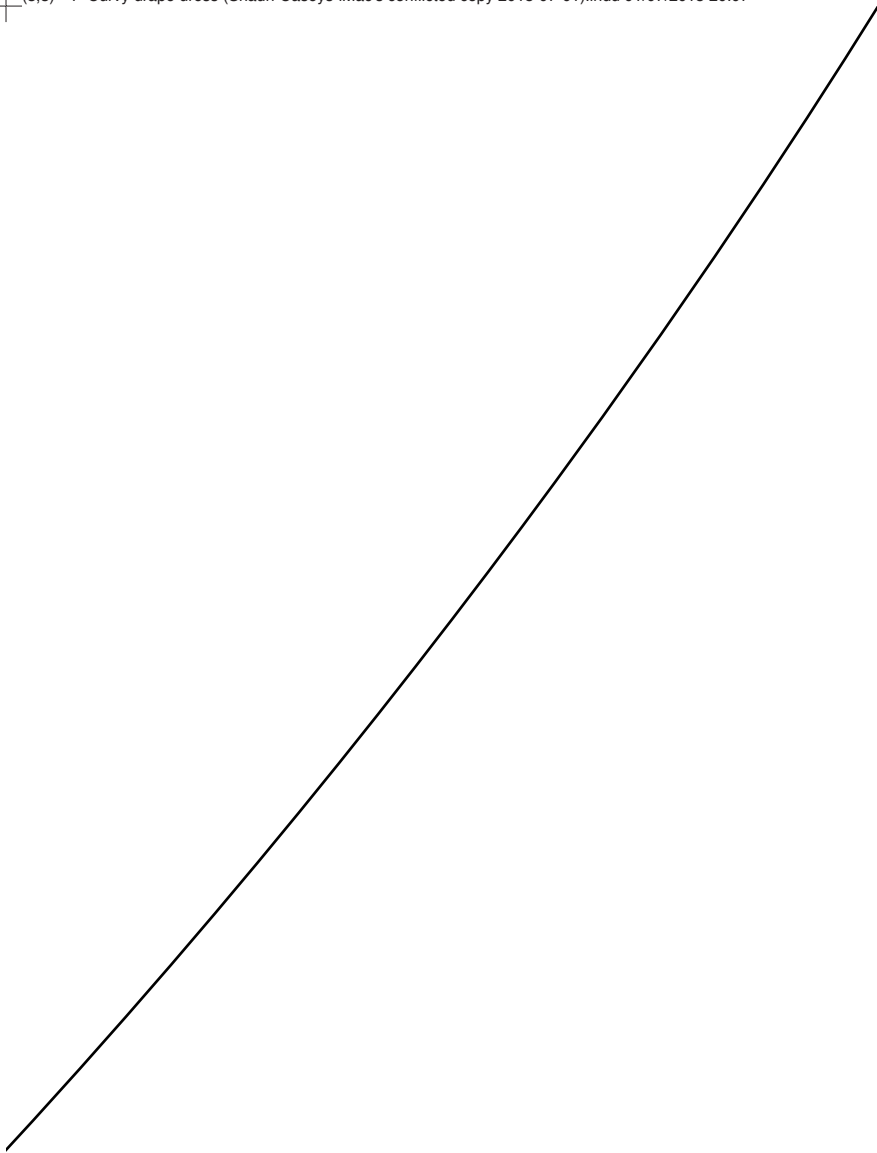

Hem your SKIRT along the bottom edge with a small roll hem.

Pin, then stitch, the SKIRT to the BODICE with right sides together, aligning the blue dot to be the centre back of the dress. The final 18 - 20cm of the SKIRT at either end will overlap. This is the

BOTTOM HEM

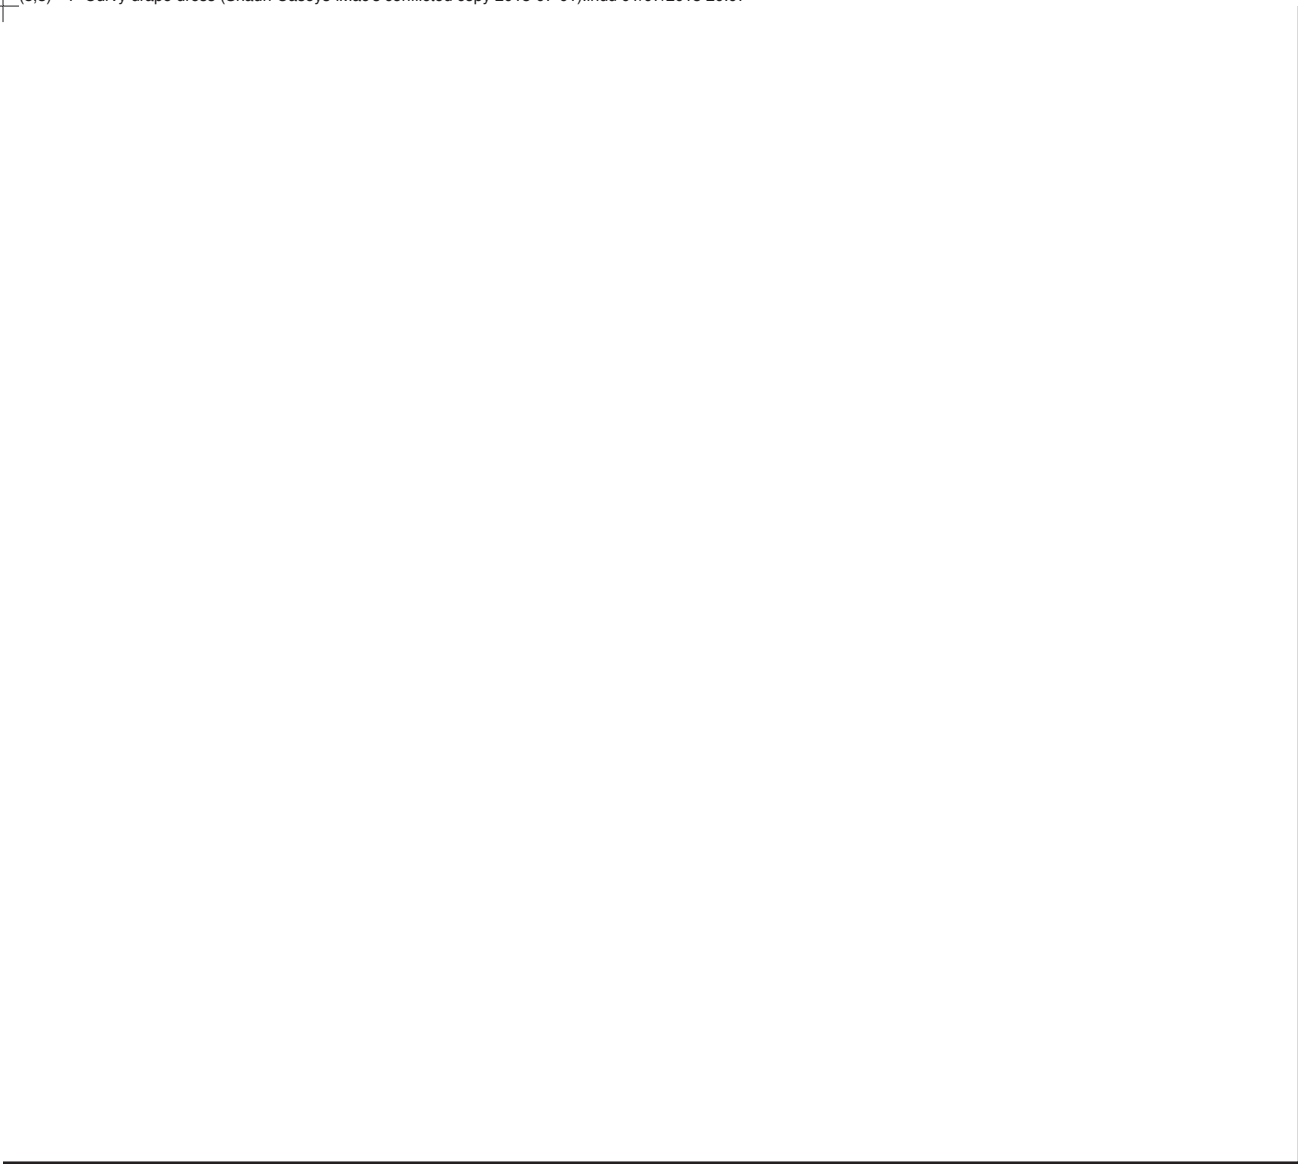

front of the dress.

Attach the elastic to the inside of the dress with a zigzag or stretch stitch to allow for stretch.

Hem the sleeve holes.

This dot on back only
