

**Snohomish Cooperative Preschool
Baby Doll Bunting Sewing Pattern**

Snohomish Cooperative Preschool Baby Doll Bunting Sewing Pattern

Supplies

Polar fleece, sweatshirt knit

23" of double fold bias tape, made or purchased

Thread

Tips

Pattern is suitable for repurposed sweaters or felted sweaters, but be aware that any items intended for school use will be laundered frequently.

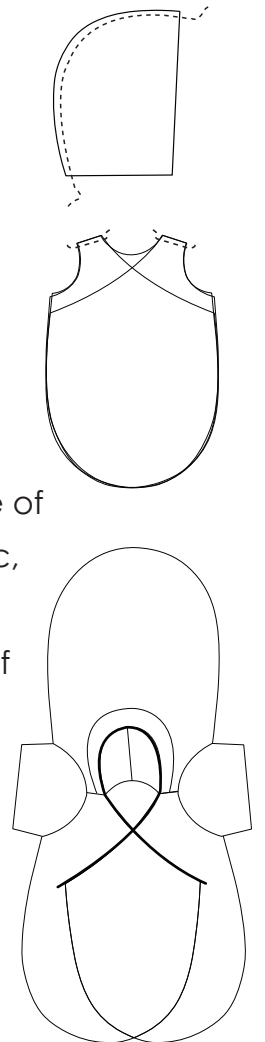

Instructions

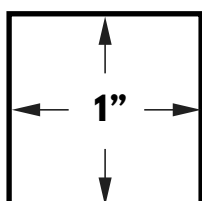

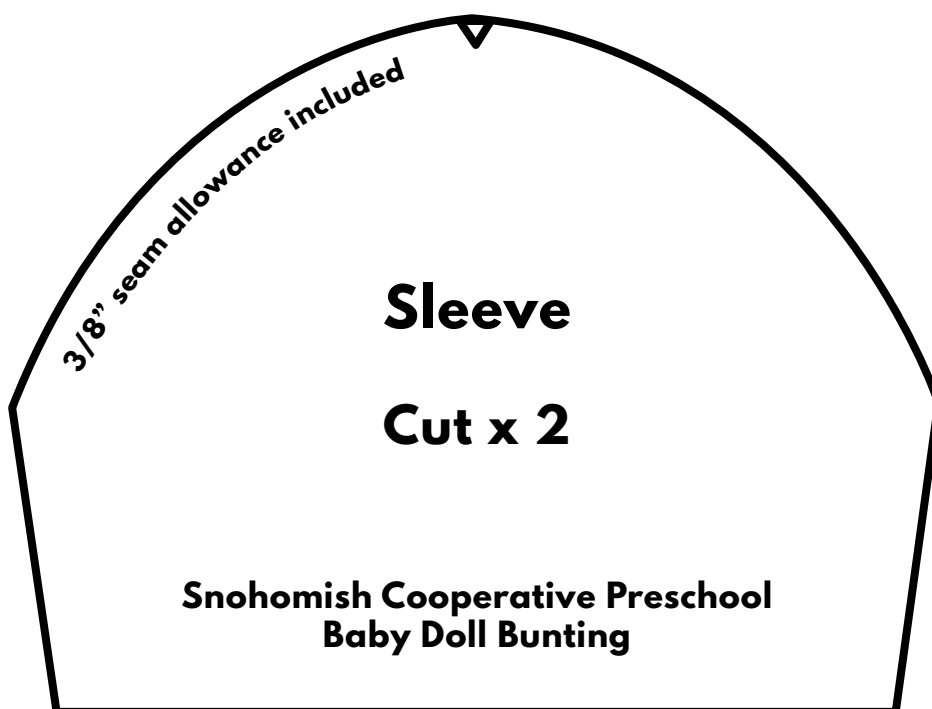

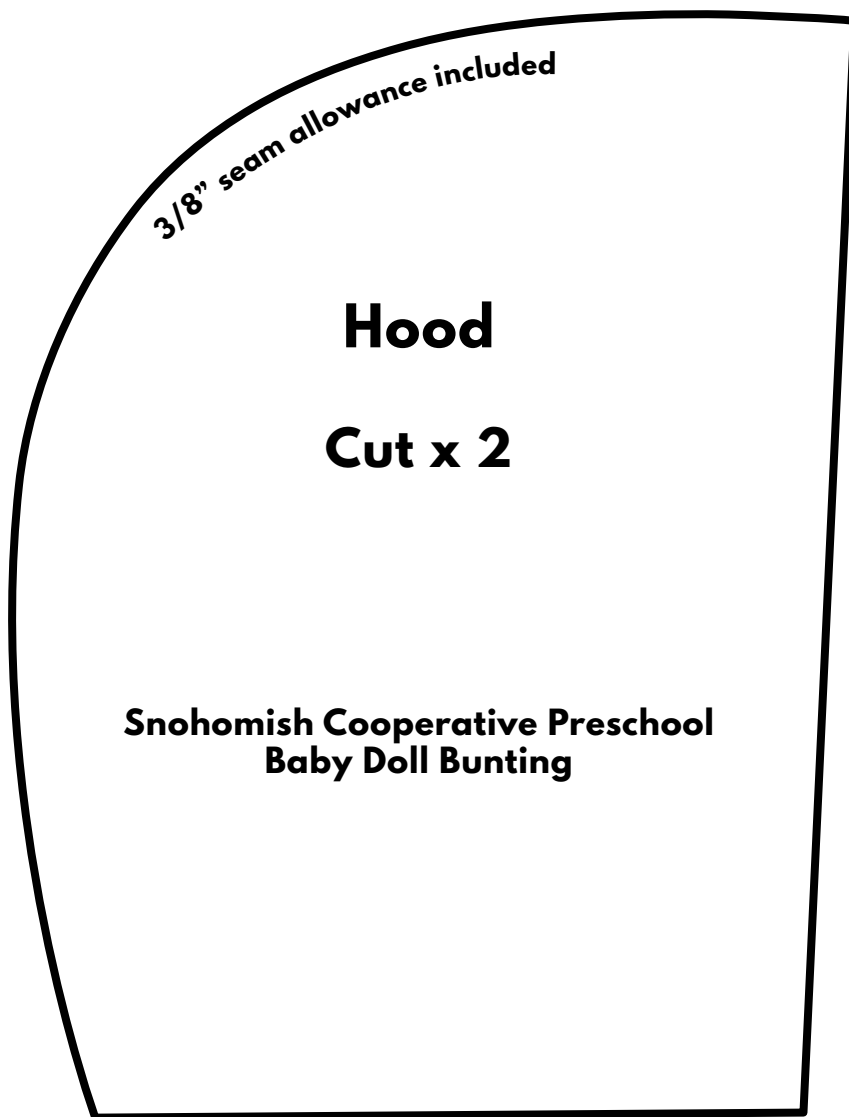

1. Print pattern and cut out fabric. Do not scale. Reverse front surplice and hood pieces to create mirrored pairs.
2. Sew hood right sides together.
3. Sew shoulder seams right sides together.
4. Attach hood at neckline, centering back.
5. Open out bias tape and attach by preferred method, starting at lower edge of front surplice, continuing around hood opening and ending at opposite surplice edge.

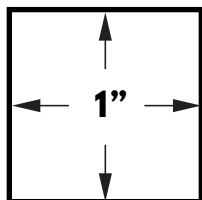

Option one: Align raw edge of opened bias tape to wrong side of fabric, sewing along fold line before turning tape to right side of fabric, pinning and edgestitching in place.

Option two: Align raw edge of opened bias tape to right side of fabric, sewing along fold line before turning tape to wrong side of fabric and slipstitching in place by hand.

6. Fold sleeve cuff under by $\frac{5}{8}$ ". Hem $\frac{1}{4}$ " to $\frac{3}{8}$ " from folded edge.
7. Attach sleeves at armhole curves.
8. Fold bunting right sides together, aligning bottom center notches, sandwiching all three layers, and lapping front.
9. Sew from edge of one sleeve, pivoting at armpit, around bunting edge, ending at opposite sleeve edge. Turn bunting right side out.
10. Dress your baby.

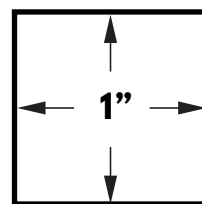

Front Surplice

Cut x 2
