TUTORIAL

1. Put darts into the front part
2. Cut the belt strap into two parts: one at 24 cm length and one 56 cm length
3. Attach the d-rings to the shorter belt strap
4. Sew the shoulder and side seams, work the pockets and put in the belt straps according to the pattern
5. Sew the sleeve seams and put the sleeves in
6. Iron up the sleeve seams and stitch them loosely
7. Put in the zipper and close the back seam
8. Put the folds in the back together using x and o and sew
9. Turn over trimmings at the neckline and sew the trimming to the seam allowance of the sleeves by hand
10. (Small trick so the dress doesn't slip off the shoulders despite the low back – i attached small pieces of velvet ribbon to the trimmings with press buttons. Simply attach these to your bra strap and you'll be good to go)
11. Hem the dress
