This technical drawing shows a mechanical part with a curved profile. The part is defined by a thick black line on the right side, which curves upwards and then downwards. A thin black line on the left side represents a vertical section or a different part of the assembly. The drawing is enclosed in a rectangular frame. There are two small circular features, one at the top right and one at the bottom right, which appear to be fasteners or mounting points. The text 'page 2 / 4' is centered in the middle of the drawing.
