The diagram is set on a grid with 20 columns and 20 rows. A path is drawn with black lines. It starts at the top center (row 1, column 10), curves down and to the right to a point at (row 3, column 15), then continues as a long diagonal line down to the left, ending at (row 15, column 10). From there, it curves down and to the left to (row 17, column 10), then continues horizontally to the left to (row 17, column 5). From (row 17, column 5), it curves down and to the right to (row 19, column 10), then continues horizontally to the right to (row 19, column 15). Finally, it curves up and to the right to (row 20, column 15), which is directly below the starting point, completing a loop.
