

## Simple Boat Neck Top

This long sleeved, simple boat top can be made in only one hour --assuming you have a fully functioning sewing machine. The top is comfortable to wear and very functional. It can be worn in a wide variety of settings and complements all kinds of different looks.

The simple boat neck top pattern is really easy to make. I used a linen jersey knit with a very appropriate print of the map of the world. Please see the image below. You can use rayon, cotton or a combination of all, soft and drapery is best since the sleeves are kimono style. I love the top since it is very easy to make and even easier to wear with a pair of jeans, culottes or a pencil skirt.

You can sew this design with a sewing machine and serger or you can even sew it by hand quite easily. I did my first one by hand using a combination of back stitch and running stitch and I made the second sample using my sewing machine and serger. Both came out looking good and both took less than an hour to make.

## To print your PDF pattern

Your pattern pieces come at the end of these instructions. For accurate printing, please make sure you are using the latest version of Adobe Reader. You can [download the latest version here](#) if you need to.

Select File → Print and the print dialogue box opens. Under Page Sizing and Handling, select ACTUAL SIZE . Check the preview in the right hand side illustration. Select the page numbers you want to print. You can print the whole document, or just the pattern pieces.

On the edge of the top left page is a box you can use to test your printing. This box should measure 2 inches square. If yours is wildly different you will need to check your printer options to make sure the pages are not being resized.

Use the grey guides on the overlap of the sheets to match up the pattern pieces, folding under or cutting off any overlaps, tape together and cut out your pattern pieces.

## Help printing and assembling your pattern

You can find helpful tutorials on how to download, print and assemble PDF sewing patterns here:
