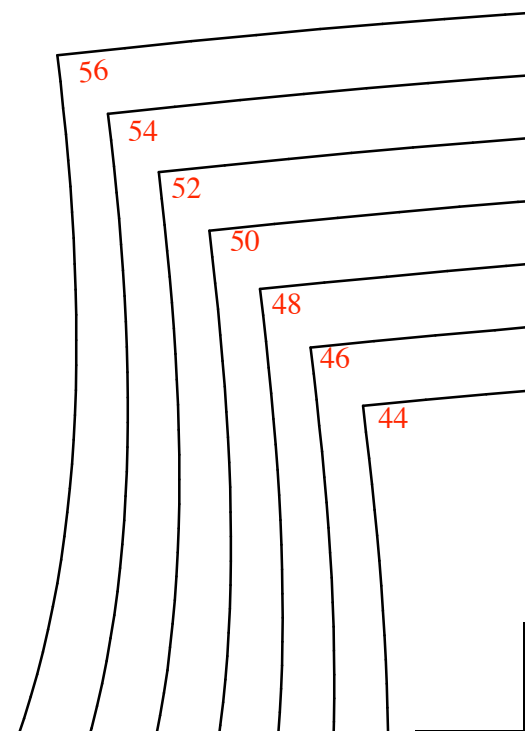

Figure 1 shows a 2D hexagonal lattice. A central hexagon is highlighted in red. Red numbers 44, 46, 48, 50, 52, 54, and 56 are placed at the vertices of the central hexagon and its immediate neighbors. Black arrows and ratios indicate bond types: $\leftarrow$ 1:1 and $\rightarrow$ 1:3 on the left and right edges, and $\downarrow$ 2:2 on the bottom edge.
