A11

The diagram is a geological cross-section. It features a curved upper boundary line that slopes downwards from left to right. Below this curve, there are several horizontal layers. The topmost layer is labeled 'A12'. Below this layer, there are three more horizontal layers, each separated by a thin line. The bottommost layer is the thickest and is labeled 'A12' in the center. The entire diagram is enclosed in a rectangular frame.

A technical drawing on a light gray background. On the left, there is a vertical rectangular area divided into three horizontal sections by thin lines. Small squares mark the corners of these sections. To the right of this area, a large trapezoidal shape is defined by two parallel horizontal lines and two slanted lines. A vertical line segment is drawn from the top-left corner of the trapezoid down to the bottom edge. A small horizontal tick mark is located on the left slanted line. The label 'C09' is centered within the trapezoid.

C12

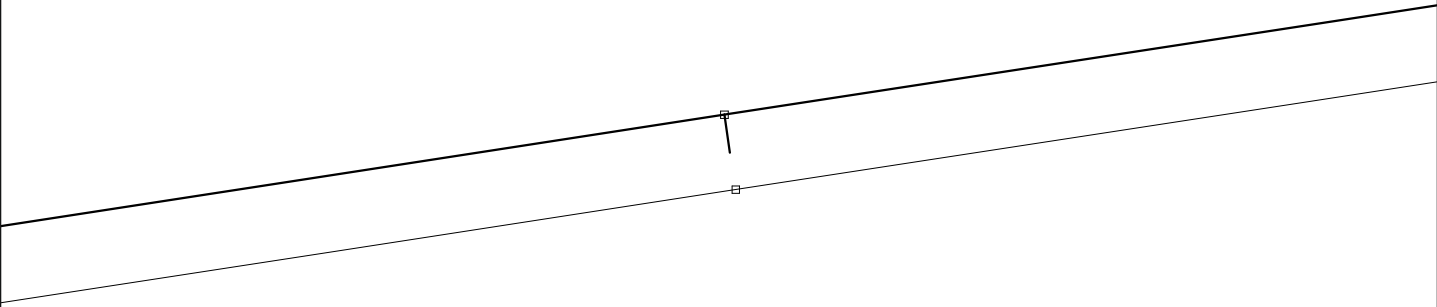

A geometric diagram showing a trapezoid with a diagonal and a perpendicular line segment. The trapezoid is defined by a top horizontal line, a bottom horizontal line, a left vertical line, and a right slanted line. A diagonal line segment connects the top-left corner to the bottom-right corner. A vertical line segment is drawn from the top-right corner down to the diagonal, meeting it at a right angle, indicated by a small square symbol. The label 'C13' is positioned in the center of the diagram.
