A01

A geometric diagram within a rectangular frame. It features several lines: a horizontal line on the left, a line sloping down from the left towards the right, a line sloping down from the top right towards the center, and a line sloping down from the top right towards the bottom right. Two small squares indicate right angles: one at the intersection of the horizontal line and the line sloping down from the left, and another at the intersection of the line sloping down from the top right and the line sloping down towards the bottom right.

A geometric diagram showing two parallel lines intersected by a transversal line. The transversal line is labeled 'B09' on its right side. On the left side, there are two small squares indicating right angles: one at the intersection of the transversal and the upper parallel line, and another at the intersection of the transversal and the lower parallel line. A short horizontal line segment connects these two intersection points.

Размер 42

C12

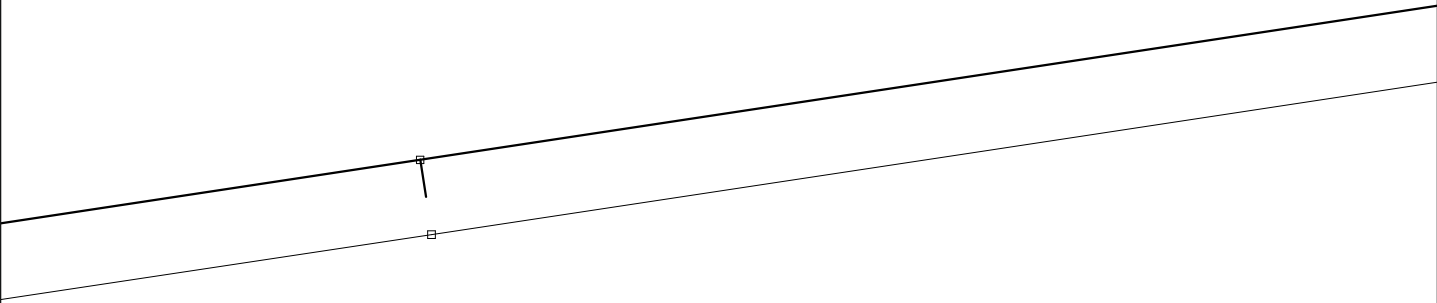

A technical drawing of a trapezoid on a light gray background. The trapezoid is defined by a top horizontal edge, a bottom horizontal edge, and two slanted side edges. A diagonal line runs from the top-left vertex to the bottom-right vertex. A vertical line segment is drawn from the top-right vertex down to the diagonal line, with a right-angle symbol at the intersection point. The label 'C13' is centered within the trapezoid.
