PREPARATION DU PATRON

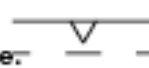

Indique: pointe de poitrine, lignes de taille, de hanches et/ou avant-bras. Ces mesures sont basees sur la circonference du vetement fini (Mesures du corps + Aisance confort + Aisance mode). Ajuster le patron si necessaire.

Rallonger ou raccourcir aux lignes de rectification (—) ou a l'endroit indique sur le patron. Si le rallongement est important, un excès de tissu peut s'avérer necessaire.

- Rallonger - Couper entre les lignes de rectification. Espacer les bords (parallement) pour obtenir la longueur desiree.
- Raccourcir - Former un pli a une des lignes de rectification. Exemple: pli de 1cm pour raccourcir de 2cm.

Reporter tous les repères sur l'envers du tissu avant d'enlever le patron. Les repères a reporter sur l'endroit seront marques au fil.

Lignes de couture - a 15mm des bords coupes, sauf contre indique:

Repere-bouton - indique emplacement exact.

Repere-boutonniere - indique largeur et emplacement.

Repères - utilises pour faire correspondre coutures et details de construction.

Lignes des pliures, emplacements, et milieux, sont imprimees clairement; si desire, les marquer au fil.
