

Naples Collar

girls' sizes 12 months to 12 years

Naples Collar

Naples Collar

The Naples Collar is a softly rounded one piece collar designed to work either with the [Naples Dress](#) pattern, or as a stand alone accessory collar.

Materials

main fabric

double fold bias tape

*optional - lightweight fusible interfacing

coordinating thread

Recommended Fabrics

Medium weight cotton or cotton blends such as quilting cotton, sateen, poplin, chambray, or linen.

Fabric Requirements

Based on 45" wide fabric. Collar fabric is cut with a 45° angle fold and the pattern piece placed against this fold.

Naples Collar

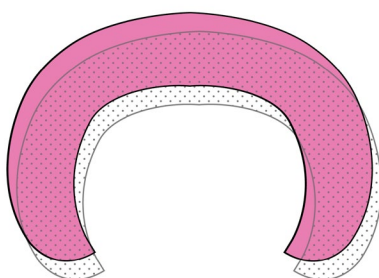

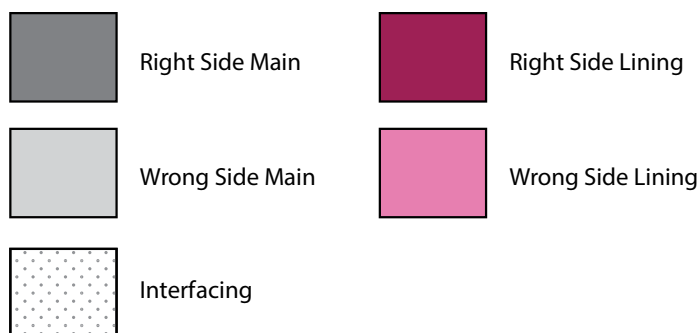

Glossary of Terms

- SA - Seam Allowance
- RST - Right Sides Together
- WST - Wrong Sides Together
- *Edge Stitch* - Stitch 1/16" to 1/8" from the edge of the fabric. Use a slightly longer stitch length for a nice look, and do not backstitch; use a locking stitch or pull threads through to the backside on visible ends.
- *Baste* - A seam sewn with a longer stitch length (4 or 5) to hold pieces in place for later steps or sewn in parallel lines for gathering.
- *Topstitch* - Stitch 1/16" to 1/8" from the edge of a seam. Use a slightly longer stitch length for a nice look, and do not backstitch; use a locking stitch or pull threads through to the backside on visible ends.

Sewing Instructions

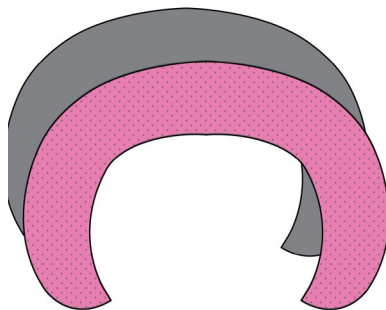

All seam allowances are 3/8"/1cm except where noted. All seams are enclosed or finished.

Shading is used to show right and wrong sides of fabrics. On some steps showing pieces within one another, the outer piece may be transparent, which affects the shading slightly.

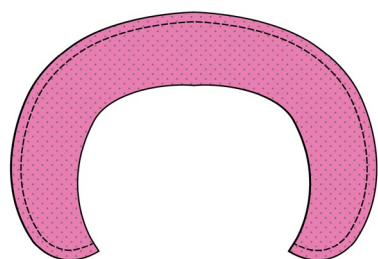

Step 1: If both fabrics are lightweight, first interface one collar piece. I like to apply it to the lining, but it can go on either side.

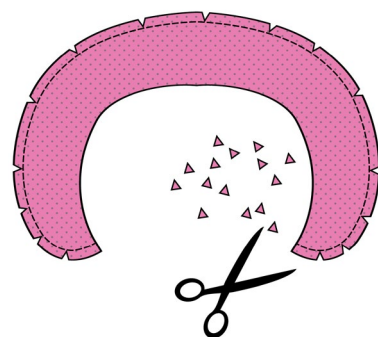

Naples Collar

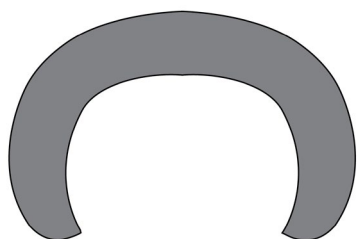

Step 2: With right sides together (RST), align and pin the two collar pieces.

Step 3: Sew around the outer edge of the collar with a 3/8"/1cm seam allowance (SA).

Step 4: Clip notches around the curve of the collar to reduce bulk and help the collar lay smoothly. Be careful to clip close to, but not through the stitching line.

Step 5: Turn the collar right sides out. Use a point turner, chopstick or other tool to push the seams to the outside. Press, rolling the sewn edge slightly to the backside to help hide the seam.

Interfacing

Bias Wrong Side

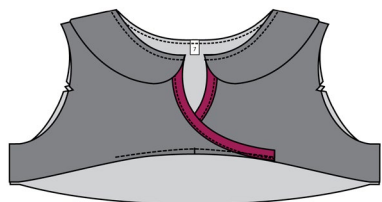

Wrong Side

Right Side

Naples Collar

Step 6: If applying the collar to the Naples Dress, do so at Step 4 of the tutorial, where you would be staystitching the neckline.

Right Side

Step 7: Apply bias tape to the neckline edge. With RST and raw edges aligned, pin and sew along the first crease.

Pressing the length of bias into a flat circle as it will be applied to the neckline first will help it to lay smoothly.

Step 8: Wrap the bias tape to the backside of the collar and sew from the front side close to the edge of the bias. Extend the bias past the edge on both sides to form a tie. About 6-8"/15-20cm is a good length to form a bow, or you can leave longer length and cut to size once complete.

The ends of the ties are folded under to enclose the raw ends. This can also be done by first folding the bias right sides together to form a "W" or "M", sewing across the end, and then clipping corners and flipping the tie right side out.

Yahoo! You made a fun Naples Collar!

I'd love to see your versions:

Naples Collar

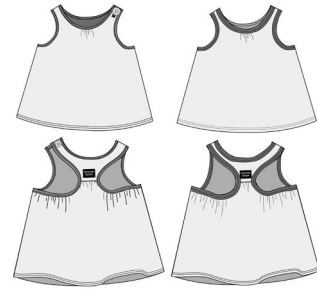

Love the Naples Collar? Check out these other Jennuine Design patterns:

LOL Swing Top

Is a breezy summer top with an a-line front and a racerback yoke and nearly half circle back. Instructions for either woven or knit fabrics make this a very versatile pattern. A single button or snap closure at the left shoulder for wovens and no closure for knits make this an easy dressing option.

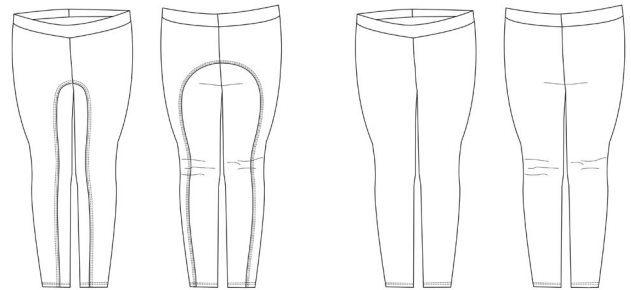

#lolswingtop

Dressage Leggings

A true close-fitting legging with inset panels in front and rear to mimic riding pants with a saddle grip. Perfect for highlighting interesting fabric combinations or to preserve lighter colors with a darker seat panel.

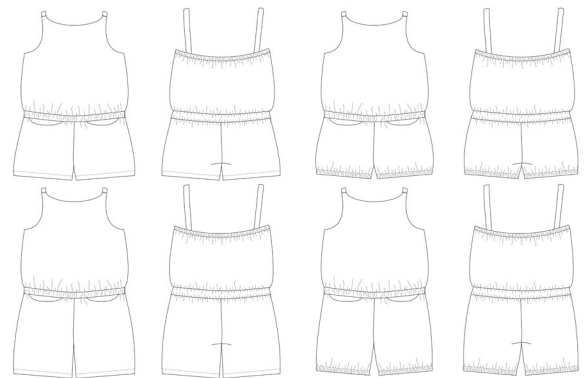

#dressageleggings

Satya Romper

Sanskrit for truth, the Satya Romper is a playful and versatile romper or playsuit, with arced pockets tucked into the waist seam. The bodice neckline mirrors this detail. Elastic straps and back make this an easy dressing option for independent kids. A snap opening option is included for sizes nb - 2T to make for fast diaper changes.

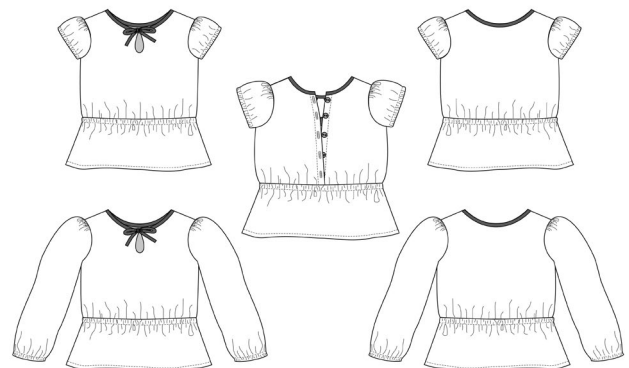

#satyaromper

Haven Acres Blouse

A sweet and comfortable top with a keyhole neckline, gently gathered sleeves and elastic at the waist. A flounce falls from the natural waist to the hip. Sleeves can be short or long to span every season. The smallest sizes have a snap or button placket at the back for easy dressing.
