

Scissors Pouch Pattern

No matter how many times you've heard your mother or teacher say "don't run with scissors!" you still do (because you seem to always be in a hurry). Well, that's exactly what I did and on my way to a quilting group, I dropped my favorite, most [precious scissors](#).

I value them so much because they were a gift from my tailoring teacher. She is now 92 and still living in New York City. Needless to say, these scissors are irreplaceable, they remind me of an era long gone by when we believed that higher education in fashion was going to solve all our problems, and you could find a job right away and be famous and rich all at once.

The truth today is the same as what remains of my scissors after dropping them on the hard concrete of my driveway. They are blunt and almost useless. Nothing left but the memories. Heartache!

I will take my scissors to an expert to see what can be done. In the meantime I am sharing this scissor pouch pattern with you, so you can run with or protect your own should they fall out of your hands.

This is an easy scissors pouch pattern to help you never lose your scissors again. There are five spaces in this scissors pouch. Enough room for scissors of different sizes.

To print your PDF pattern

Your pattern pieces come at the end of these instructions. For accurate printing, please make sure you are using the latest version of Adobe Reader. You can [download the latest version here](#) if you need to.

Select File → Print and the print dialogue box opens. Under Page Sizing and Handling, select ACTUAL SIZE . Check the preview in the right hand side illustration. Select the page numbers you want to print. You can print the whole document, or just the pattern pieces.

On the edge of the top left page is a box you can use to test your printing. This box should measure 2 inches square. If yours is wildly different you will need to check your printer options to make sure the pages are not being resized.

Use the grey guides on the overlap of the sheets to match up the pattern pieces, folding under or cutting off any overlaps, tape together and cut out your pattern pieces.
