The image shows a graph with a horizontal axis and a vertical axis. A solid black line starts at a low value on the left, rises to a peak, and then falls. Several other lines in various colors (yellow, cyan, purple, orange, blue, green, red) follow a similar path but are shifted vertically. These lines are represented by different styles: solid, dashed, and dotted. A large, light gray 'D1' is centered in the lower half of the graph. A vertical yellow line is on the far left, and a vertical black line is on the far right. A horizontal black line is at the top.
