- Then, open your file and click on the LAYERS icon (left side of the screen) and uncheck all the sizes you won't need.
- Now, click on the PRINT icon at the top of the screen. The print settings will appear, so verify that the ACTUAL SIZE option is checked. Click on the PRINT button!

- A 5 x 5 cm (and 2 x 2") control square is provided to ensure that your pattern is true to size.

The diagram shows a pattern piece for the back of a sleeve on a grid background. It features a long, narrow rectangular shape with a diagonal line running from the top-left corner towards the bottom-right. The pattern is defined by multiple lines: a solid outer boundary, a dashed line parallel to it, and a dotted line further in. At the top-left corner, there is a small rectangular notch with a dashed line indicating its depth. A large, faint watermark 'UP1030' is visible across the center of the page.
